

## TELLUS Compact SCADA

A compact power-rich cost-effective SCADA capable of interfacing with PLC/RTU/IED data to a PC based Human Control interface (HCI) through cable/wireless means for all tags of a small to mid-size plant enabling affordable process automation system.

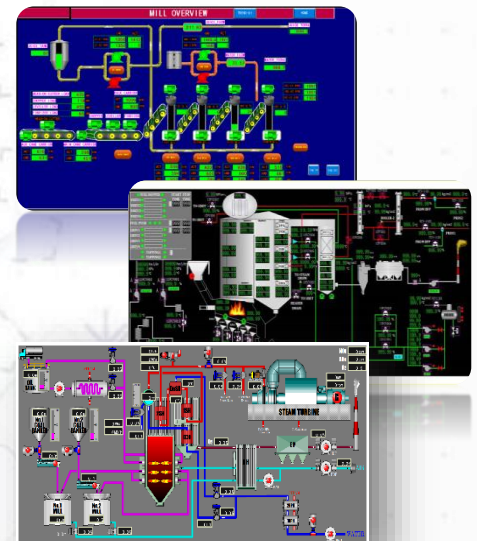

- 150+ Device Drivers
- 1,000 IO Point License
- User Friendly Configuration
- Recipe Function
- Alarms & Reports
- Event Notifications (E-mail /SMS)
- Scheduler
- Data Companion to IIoT devices.
- Runtime & Development License
- Integrated Security

## Graphics | Operations

The Graphic capabilities of any SCADA is very important and critical factor. Various features of **Tellus Compact** allows display plant/machine parameters, take corrective control action and provide information to analyze operations for maximum efficiency.

**Tellus Compact** provides a wide range of options to perform Operations like Touch Command, Key Board Command and Mouse Over configurable actions.

- Unlimited Screens
- Full HD Resolution (1920x1080 Pixels)
- ISA Symbol Library
- User defined Symbols
- Animation & 3D Graphics support
- Import wide range of File Types
- Dual Monitor Support
- Multi Language Support
- Security for Access
- Operator / Process Log

## Trends | Plots

Trends are a display of real time and historical data. **Tellus Compact**, allows to customize Trend pages as per process requirements. Each pen can be configured with different colour. Print, Zoom, X-Y Plot and Exports are standard features.

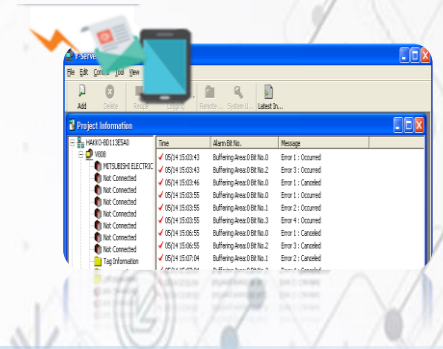

- 256 Trend Tags, 16 Pens /page
- Fast 100ms Sampling
- Zoom
- X-Y Plot
- Export - .csv file

## Alarms | Events

Alarms are important for any kind of process. **Tellus Compact**, allows to configure as much Alarms to protect process. Diagnostic Alarms can be configured as per requirement. In addition to standard Alarm, E-mail /SMS messages can be sent.

- 1,000 Alarms displayed
- Alarm Delay / Filter
- Ack based on Category
- Diagnostic Alarms
- Email / SMS Notification
- Export - .csv file

## Reports

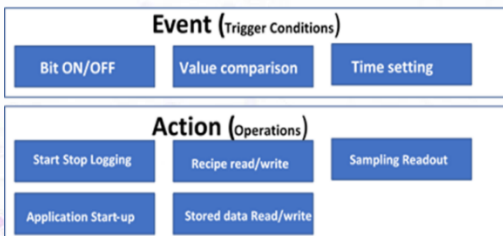

Reports are vital requirement of any Processes. **Tellus Compact**, will gives options to meet your various Reports requirement. **Optional Reporter Package** will meet the complex requirement including database connectivity.

- Shift / Daily / Monthly Report
- Customized Format with Mathematical Calculation
- Import / Export to Database

## Automatic Response to Events

Setting of various events based on the requirement of the operation allowing for a high degree of flexibility, to adapt to the specifications of the production line.

## Recommended Operating Condition

Item	Tellus Compact
Computer	PC/ AT compatible running Windows
OS	Windows 10 (32-bit, 64-bit)/ 8.1 (32-bit, 64-bit)/ 8 (32-bit, 64-bit)/ 7 (32-bit, 64-bit)/ Vista (32-bit, 64-bit)/XP64 Edition XP/ Server 2012/ Server 2008 R2
CPU	Pentium IV 1GHz or higher
Memory	Min 256MB (512 MB or more required for use of emulation mode)
Hard Disk	Min 1 GB of free disk space
Display	Resolution: XGA 1024x768 or higher, Display Colors : High Color 16 bits or more
